Hand-drawn diagram of a chat interface showing a sequence of messages. The first message is from 'H1' with a 'reg: 100' status and a 'Hi, Cuser!' message. The second message is from '30 MARCH' with a 'time' status and a '#' symbol. The third message is from '30 MARCH' with a 'time' status and a '#' symbol. The fourth message is from '30 MARCH' with a 'time' status and a '#' symbol. The fifth message is from '30 MARCH' with a 'time' status and a '#' symbol. The sixth message is from '30 MARCH' with a 'time' status and a '#' symbol. The diagram is labeled 'time stamp' and 'comment'.

The diagram illustrates a web form layout on a grid background. It is divided into two main sections by a horizontal line. The top section is titled 'Form' and contains a 'Register' form. The bottom section contains a 'Login' form. Arrows indicate the flow of the user's path through the forms.

Register Form:

- Header: **Register**
- Fields: First name, Last name, email, user name, password.
- Buttons: Submit, Already signed in?

Login Form:

- Header: **Login**
- Fields: user name, password.
- Buttons: Submit, Not registered yet?

Flow:

- An arrow points from the 'Form' label to the 'Register' form.
- An arrow points from the 'Submit' button of the 'Register' form to the 'Login' form.
- An arrow points from the 'Not registered yet?' button of the 'Login' form back to the 'Register' form.
